Dear Harold;

Thanks for the letters. It seems if you are making progress. I guess the closer you get the more they tighten up. I read Lanes book, got it from the library. I didn't see anything in it that you hadn't come up with seven years ago. The only thing I hadn't read was what the ex-FBI man Murtagh had to say. The people out here in the Bureau that I have spoken to call him a nut and a lot of other things. I am sure you have seen the encloseure ~~xxx~~ by now. Lanes giving you cretit for Redditt.

Today just heard the news about Baxter Wards interview with Sihan in Soledad. It sounds like Candy Jones and Olsen. One of my far-out theories is that "they" may be directing attention to the RFK killing to take the heat off the MLK investigation. It seems to me it would be a lot easier to prove a conspiracy in MLK right now and this would make 22,000,000 black citizens very uptight whereas I don't know what it would take to arouse the whites in this country to see or care about the truth.

Hope this finds all of you well I only wish I could do more to help, but in the meantime please use the enclosed check where it will do the most good.

Best, Paul

P.S. What did you think of Irving Wallace article on Nixon's first case? Did Roffman see it?
